

## Editorial

Welcome to this Fourth volume of *The Journal of Undergraduate Nursing Writing*. This journal is a compilation of original articles written by senior nursing students in the Bachelor of Science in Nursing program at the University of Kansas School of Nursing.

The articles presented in this volume originated as assignments given in the students' senior level classes. The original call for papers did not limit their entries to any particular classes but all papers received came from the Populations or Legal/Ethical Nursing courses. Thus the content represented here deals with legal, ethical, or population issues.

Writing about these issues was not easy. These authors all show an ability to describe these issues in their own manner while using sophisticated resources. Examples of topical choices this year include mandated childhood immunizations and pediatric cochlear implants, female circumcision, consent issues with minors, physician assisted suicide, adolescent sexual health and the ongoing rise in cesarean section. Their ability to sort through the piles of information available on each of their topics and emerge with a perspectives of what is the best way to proceed so that they can provide better care to their clients should give us all a positive uplift about the future of nursing.

This endeavor would not have been possible without the support of several dedicated individuals and organizations. The Dykes Library staff at the University of Kansas Medical Center campus was wonderful. Delta Chapter of Sigma Theta International provided the financial support along with the positive encouragement of the Chapter Executive Board. Without this, the prizes each author received for the selection of their article would not have been possible. Lastly we commend the faculty and staff at the University Of Kansas School Of Nursing for their patience and responsiveness as we sorted through all the issues necessary to make this happen. We would have been lost without their willingness to listen and share their own personal experiences.

We hope you enjoy this fourth volume and await your feedback. Let us know what you think.

Editor:

David Martin, RN, MN  
Clinical Assistant Professor

Associate Editors:

Dr. Martha Baird, PhD, ARNP  
Clinical Assistant Professor

Dr Nelda Godfrey, PhD, ARNP, BC  
Associate Dean for Undergraduate Programs  
Clinical Associate Professor

Jo Ellen Greischar-Billiard, MS, RN  
Clinical Assistant Professor

Dr. Vicki Ross, RN, PhD  
Research Assistant Professor
